STATEMENT

Please provide a statement describing why are you are running, what you hope to do, and any significant accomplishments you have achieved. Please limit your statement to 250 words or less.

I am running for Alameda County Democratic Central Committee in the 14th Assembly District to help elect more progressive Democrats to higher offices to advocate for policies that provide dignity for all human beings especially as it relates:

- a woman's right to choose
- healthcare
- high quality education
- environmental protection
- efficient, accessible, affordable public transit

I hope to broaden the Central Committee and put it on a path toward more diversity across a number of characteristics.

I've helped a number of progressive candidates get elected to public office. I was on the team that developed the first iteration of the acdems.org website. My public and private sector experience have provided a number of opportunities for me to develop and personalize my leadership style on behalf of others.

ACCOMPLISHMENTS FOR YOUTH

Please describe in detail at least three of your accomplishments that have improved the lives of young people. These examples should illustrate skills and capabilities that apply to the office you are seeking. These accomplishments may have occurred at any time in your personal, professional, or public life.

I was fortunate to have a member of the Young Dems, Varoon Modak, serve as my alternate. Although he was already on a path of being politically active, this appointment provided a vantage point for the county political process that is really only appreciated with active participation.

As Acting Assistant General Manager for External Affairs and Communications for a large east bay public transit agency, I've worked with the Oakland Unified School District and the Mayor's office on behalf of transit dependent young people and their parents to provide transportation to further their educational goals.

On a very personal level, I have provided many, many resources toward the educational pursuits of my niece, who will graduate from Mills College this year, and my oldest nephew who will graduate from Contra Costa in two years. Wherever I could, I pointed resources, in the form of money, time, access and creativity, toward their goals and dreams. I have been especially proud of their scholastic achievements, even when we have not agreed on process because it's important for young people to forge their own paths.

EXPERIENCE

Please list or describe your current and past activities in the community in which you have acquired skills that relate to the office you seek. Include your role in the activity and the year(s) in which you were involved. Involvement consists of many areas such as family, neighborhood, community, employment, or public life.
